

# ALERT

>>>>>> A MONTHLY UPDATE FOR FRIENDS AND CLIENTS OF DOCTORS ACCESS

**NOVEMBER 23, 2009**

## Electronic Prescribing

The Doctors Access Electronic Prescribing module (which is also a part of the EHR solution) provides a clear migration path for providers who are wanting to move their practices to a paperless environment.....and an environment which stages them to qualify for the ARRA stimulus incentives. Most practices find that starting out with Electronic Prescribing is a great first step in becoming comfortable with adding an Electronic Solution to their current workflow.

One of the big advantages of using the Doctor Access Electronic Prescribing module is that it allows you to seamlessly transition to our broader Electronic Health Record solution when you are ready.....and you still have access to all the Electronic Prescribing you have done in the past.....the complete Prescribing history moves over with you as you transition into our Electronic Health Record solution.....AND for a limited time.....you can apply your Doctors Access Electronic Prescribing module implementation fees towards the purchase of our joint Doctors Access/Sevocity EHR solution when you are ready.

Doctors Access is hosting **free** online demonstrations and training sessions covering multiple topics. Please visit our Support site at the link below to see a complete listing of scheduled session topics.

Go to <http://www.doctorsaccess.com/help/> to watch a short video about Electronic Prescribing and click this icon to register for our next demonstration:

You can attend as many sessions as you would like. They are all Free! Once you register, you will receive an email with login information for each session you select.

## HAVE A HAPPY THANKSGIVING!

Live Support will be closed November 26 & 27 to celebrate Thanksgiving. If you need assistance, please leave an off-line message and we will respond via email.
