

ALERT

>>>>>> A MONTHLY UPDATE FOR FRIENDS AND CLIENTS OF DOCTORS ACCESS

MARCH 10, 2010

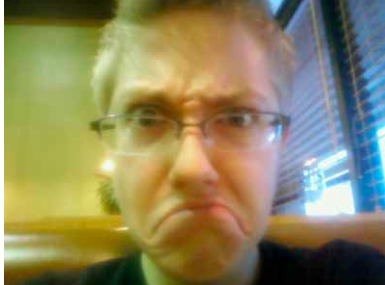

TN Medical Group Management Association Spring Conference

Doctors Access is a proud sponsor of the TMGMA and we look forward to seeing you at their Annual Spring conference in Chattanooga, March 22-24 at the Marriott Convention Center. Register to attend the conference at <http://www.tmgma.com>

TMGMA is the authoritative leader in the profession of Medical Practice Management in Tennessee, providing resources through education, mentoring, networking and advocacy.

“My System Is Running Slow” or “I’m Having Back-up Errors”

We hear those every day in Live Support. Why? Because many many many times offices are running the software on computers which don't have adequate memory space, processing speed or the correct operating system to run the program. All of these things impact the performance of the software and its ability to work properly.

To see the list of **minimum** system requirements to run Doctors Access, please visit <http://www.doctorsaccess.com/system-requirements.html>

If you need help in seeing what your computer has under the hood, please come into Live Support and we can remote-in and take a look and give you suggestions on what you may need to upgrade. We don't sell hardware, but we can let you know what to put on the list to buy. Sometimes it's something as small as adding more RAM (memory) for \$50-\$100. If you need help with installation, we can do that for a modest fee.  Money well spent. **Let us help you.**

NEXT

**Overwhelmed with Rx
Renewals & Pharmacy
Callbacks?**

**ELECTRONIC PRESCRIBING=
PRACTICE UTPOIA**

Improve the Safety and Efficiency of the Prescribing Process

- **BE PRODUCTIVE:** Reduce pharmacy faxes and phone calls due to refill/renewal requests, legibility issues, and drug incompatibility or ineligibility problems and focus on other reimbursable activities.
- **BE INFORMED:** Access medication history to prevent adverse drug events and pill shopping.
- **BE PATIENT FRIENDLY:** Easily access a patient's formulary and select cost effective prescriptions.

You're ready.
