>>>>>> A MONTHLY UPDATE FOR FRIENDS AND CLIENTS OF DOCTORS ACCESS

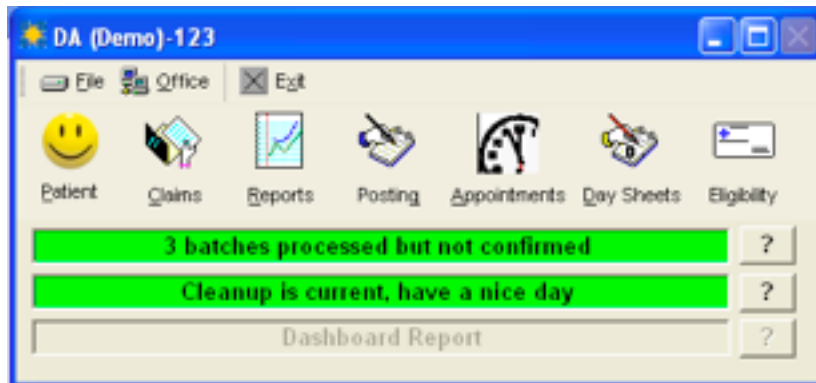

July 2010

Does holding on the phone with the insurance companies make you feel like this?

You could click one little button in your Doctors Access software and instantly verify insurance eligibility!!! No more having to call the insurance companies!!!

NEXT

With the **Insurance Eligibility Verification Module**, you can access insurance eligibility and benefit information in real-time, as well as, other essential management information for commercial and government payers. You'll even be able to reduce the number of rejected claims and improve your cash flow. And how's this for efficiency? With the **Insurance Eligibility Verification Module**, you can submit patient information from your Doctors Access software and eligibility can be verified before patients are even seen. Simply click the button and within seconds you'll know if the patient's insurance coverage is valid.

Save thousands of dollars each year by making sure that your patients have insurance coverage. Activate the module before August 31, 2010 and **we will WAIVE the \$200 set-up fee!**

*"How much does it cost to use? I'm not sure my provider will want to do this."*

**It only costs 25 cents for each eligibility check you run!!!**

(Or, you could keep holding on the phone with the insurance companies.)

**Advantages of using the Insurance Eligibility Verification Module:**

- Provides real-time access to member insurance eligibility data
- Ensures patient privacy by utilizing state-of-the-art encryption and security
- Streamlines the claim management process by reducing callbacks w/insurers
- Virtually eliminates the inefficiencies of verifying benefits by phone
